TEN CENTS A WEEK

QUAKE OF EARTH WRECKS CHILEAN CITY

Fire Ydds to Horror—Hundreds
of Lives Lost.

BODIES BURIED AMIDST RUINS

Cable Communications With South America Are Cut Off and Details Are Meager—Disturbances Recorded at Washington and at Honolulu.

Valparaiso, Chile, Friday, via Galveston, Tex.—Without the slightest tremor of warning an earthquake visited this city at 8 o'clock last night, bringing instant death to hundreds of persons and leaving many hundreds more imprisoned in the ruins, many of whom were burned to death before aid could reach them, fire started immediately after the first shock, and every branch of the city's service was paralyzed.

Panic and consternation indescribable followed those who escaped death and injury became frenzied with fear and could render but little assistance to the unfortunate victims.

The business section of the city is almost entirely destroyed and fires are still raging. We are suffering a repetition of the horrors of San Francisco. As night comes on the city presents everywhere a glow of unobstructed fires, and clouds of smoke and vapor settling into the streets and houses where throngs of homeless ones are wandering about crazed by the awful calamity.

It is almost impossible to ascertain how wide an area of country the visitation has had waste. Nothing has been heard from Santiago, the capital city of Chile, and it is feared that the fate of that city is faring worse than Valparaiso.

Telegraphic communication is cut off in every direction and every one here is too much depressed by the calamity at home to seek information of other places.

No trains have arrived in the city or left it since the first shock came, as all of the railroad tunnels are filled and miles of track on the surface are twisted and rendered useless.

It is only known from general accounts that death and destruction are on all sides visible.

There were two distinct and terrific shocks, the second one following almost instantly after the first, and completing the work of destruction. The day had been unusually calm and pleasant. At 8 o'clock the city suddenly seemed to swing backward and forward, and then came to a sudden jolt of such mighty force that rows of buildings toppled to the earth as if made of brittle plaster.

While rows of buildings went down and in a few seconds after the second shock had subsided it became known that the business part of the town was doomed.

From the Bell Avista section little was heard, but before midnight fires were soon burning there, and it was learned that that section of the city also was doomed.

The city stands on a formation of granite gneiss which seemed to accentuate the force of the shock. Before the stunned people were given time to realize the magnitude of the calamity, again the city was shaken with a violence greater than before. The earth in places lifted, and pitched the buildings forward. In other places there was a heavy tremor that shook every building to the ground. This shock continued longer than the first. When it had subsided fires were blazing up and thousands of terrified persons were praying for the panic-swept city.

Many landslides have occurred around the city, and scores of lives have been lost. At present it is impossible to state the number of dead in the entire city, but it is believed there are several hundreds, many of whom are still in the ruins. It has said waste the best part of the business portion of the city and has doubtful put Chile back many years in the scale of civilization. The captain of the German vessel Yara, which arrived today at Oquendo, stated that when 20 miles at sea he saw

see the flames raging in Valparaiso. Many inhabitants are terrified with fear of other shocks, and the work of rescuing the bodies is proceeding very slowly.

The Bell Avista district referred to which is on the hills behind the city is the most select residence district of Valparaiso and apparently suffered the same fate that overtook Nob Hill in San Francisco's earthquake.

Honolulu, Aug. 17.—1 p. m.—Wireless reports from the islands of Hawaii, Maui, and Hilo reports tidal wave, the general height of which was 5 feet. In the enclosed bay of Maalea, on the island of Maui, its height was estimated to be 12 feet; where it carried away a wharf and its superstructures. The phenomenon was manifested by an unprecedentedly heavy surf.

The tidal wave is attributed to the earthquake at Valparaiso. Thirty years ago an earthquake in South America produced similar effects here.

New York, Aug. 20.—Wessel, Duva & Co., which does a large business in South America, especially Chile, has received the following dispatch from Valparaiso:

"Town nearly destroyed. Particulars later, when shakes cease."

This dispatch was timed 3:55 a. m., but it is not known whether it was filed yesterday morning or this morning.

New York, Aug. 20.—The Central and South American Telegraph company reports that the situation in Valparaiso is similar to that which occurred in San Francisco. Their manager reports that all places of business have been closed, and the delivery and operation staff is much demoralized. No messengers have reported formally, and deliveries can only be made on application to the office.

A great many of the people in the city have left for other parts.

STARVING TO CHEAT GALLOWS.

Sturgeon, Who Killed Three Men for Woman, Despaired at Suicide.

Louisville, Ky., Aug. 20.—Clarence Sturgeon, who killed three men on account of Daisy Jackson, a 16-year-old girl, announced in his cell when told of her suicide, in a resort in this city, that he would starve himself to death. He started at once by refusing to take food.

Sturgeon admitted that the girl was from Carrollton, Ky., and that he had betrayed her. He said he had intended making her his wife.

A peculiar feature of the case, so far as Sturgeon's loyalty to her memory is concerned, is that she killed herself because of her infatuation for C. B. Gray. She told Gray, it is alleged that if he did not reciprocate her affection she would kill herself. Just before taking the fatal dose, she said that Gray had defied her to do it. Gray has denied that the girl was his sweetheart.

Sturgeon was placed in a dungeon Tuesday night for an assault he committed on Roy Landrum. Landrum is a witness against Sturgeon. The jail officials did not recall this when Landrum was brought in to be locked up, and they placed him in Sturgeon's cell. Sturgeon tried to kill the man.

Collision Narrowly Averted.

Akron, O., Aug. 20.—A serious wreck was narrowly averted between Marshallville, and Warwick on the C. A. and C. railroad. An excursion train carrying a party of Orville people left Marshallville at the same time that a freight train left Warwick in the other direction. The engineers brought their trains to a stop about 4 feet apart. Irwin Critz, of Orville, the only man hurt, was thrown from his seat and suffered a compound fracture of the leg.

Negro Kills White Man.

Bluefield, W. Va., Aug. 20.—When John Smith, a white truck farmer, broke Ollie Fulton, a negro laborer, in a game of craps at Ailer and declined to resume play after Fulton had obtained more money, the negro shot the white man, killing him instantly. Fulton was arrested by Foreman Johnson, of an extra force gang, and was hurried to Welch on a hand car to prevent a lynching. Johnson's gang was enraged by the murder.

ROOT ROCKED BY CROWD OF STRIKERS

Stones Hurlled Through Train
Windows.

POLICE ARE NOW INVESTIGATING

While Mr. Root and a Party Were Returning from Ranch, Strikers Stoned the Train, Wounding Minister of Agriculture in the Neck.

New York, Aug. 20.—A cable dispatch from Buenos Ayres to a morning newspaper says:

While Secretary Root and a party were returning Thursday from the Chascomus ranch, strikers stoned the train, breaking three windows in Mr. Root's car and wounding the minister of agriculture in the neck.

Several others of the party were slightly injured.

The authorities are making an investigation.

Want Pullman Estate Assessed.

Chicago, Aug. 20.—The city has filed a petition in the circuit court for a writ of mandamus to compel the board of review to assess the estate of George M. Pullman. The petition recites that 706 shares of stock of the Pullman company of a value of \$700,000, have not been assessed. The value of the estate is declared to be \$7,000,000. The board of review has ruled that stock in dispute is a part of the capital stock of the Pullman company and as such is exempt.

Hat Factory Burns.

Orange, N. J., Aug. 20.—A fire which followed a violent explosion, destroyed the hat factory of Frederick Cummings Sons & Co., incurring a loss of about \$300,000 and throwing 500 persons out of employment. Two fires of mysterious origin did considerable damage some time ago. Members of the firm said that they had received no threats from any source, and it is at a loss to explain why any one would wish to burn their plant.

Demands Punishment of Soldiers.

St. Petersburg, Aug. 20.—Both Premier Stolypin and War Minister Rudiger are receiving many letters demanding the punishment of the officers and soldiers of the chevalier guards concerned in the whipping of Anna Smynoff, and the newspapers continue to be filled with indignant articles on the subject. M. Stolypin has ordered an investigation. The girl is in a hospital and her condition is reported serious.

Peddler Fatally Shot.

Montgomery, W. Va., Aug. 20.—At Kayford, on Cabin creek, 18 miles west of this place, Andrew Oakes fatally shot Salem Sahley, a Syrian peddler. Sahley was trying to sell some goods to Mrs. Oakes and became insulting upon her refusal to buy. She called her husband, who ordered Sahley off the premises. Sahley, cursing, refused to go and attempted to draw a knife, when Oakes shot him through the body.

Wheeler's Daughter To Wed.

New York, Aug. 20.—Announcement has been made here and in Wheeler, Ala., of the engagement of Miss Carrie Peyton Wheeler, a daughter of the late General Joseph E. Wheeler, to Gordon M. Buck, of New York. The marriage will be celebrated very quietly on Oct. 2 at the country home of the bride's family, in Wheeler, Ala. Miss Wheeler is the youngest of the four daughters of the renowned fighter who died last January.

Will Sue Employers.

Columbus, O., Aug. 20.—The Pittsburg Brick and Tile company, of New Pittsburg, L. T. J. Anderson, of East Liverpool, Cook & Bro., of Ironton, Ill.; Hull Bros. Umbrella Co., of Toledo, and Landman-Hirtch company, of Cleveland, having refused to make a statistical report to the state labor department, State Labor Commissioner M. D. Hatchford, will bring legal proceedings against them. The penalty is a fine of from \$50 to \$100.

SUFFERED MUCH FOR HIS CRIME.

Gov. Jelks Paroles a Negro, Saying He Has Suffered Enough.

Montgomery, Ala., Aug. 20.—Lawrence Roach, a negro who was convicted in Montgomery county in 1899, for the crimes of assault to murder and criminal assault on the sister of his wife, was paroled by the governor, on the advice of the trial judge and the supposition largely that he had suffered more than was rightfully coming to him. He has served more than seven years. His sentence was seven years for the assault to murder and twenty for the criminal assault.

There is much interest in the case in the county. The trial judge, writing the governor, says:

"I think the petitioner has probably suffered enough for his offense, and I recommend that he be paroled."

The governor then notes that the woman was one of his own race, a sister of his wife, and that hers was the only evidence at the trial, and continues:

"There is really very grave doubts if he committed the offense. A number of the best citizens in the place where he was raised insist that he could hardly have been guilty. He has served a sentence of seven years. It is ordered that the petitioner be paroled dependent on his future law abiding conduct."

TELEGRAPHERS BOUND OVER.

L. & N. Dispatchers Held for Discriminations Against Union Men.

Birmingham, Ala., Aug. 20.—After a preliminary hearing lasting three days, M. B. Drennon, J. W. Leach, Earle G. Evans and J. R. Moore, officials of the Louisville and Nashville railroad, were bound over to the federal grand jury in bonds of \$200 each on the charge of having discriminated against members of the Order of Railway Telegraphers, the prosecution having been brought on behalf of that order by L. A. Tanguary, deputy president.

The constitutionality of the law under which the prosecution was brought was attacked by the defense. But Commissioner Watts said he would not undertake to pass upon that question, and as he was not sure of the legal status of the cases, he would hold the defendants under a nominal bond for the trial of the case on its merits.

All Endorse Mob's Action.

Columbia, S. C., Aug. 20.—Governor Heyward returned Friday afternoon from the scene of the lynching of the negro Bob Davis near Greenwood last evening. When asked for a statement concerning the lynching the governor said he had nothing to say further than that after a conference with Solicitor Cooper, of the Greenwood circuit, he had instructed that officer to take immediate steps to prosecute the known members of the mob. As the sentiment among the best citizens of the county, as well as a number of negroes, is in sympathy with the action of the mob, it is hardly probable that the prosecution will amount to anything. A negro school teacher of the neighborhood has written a card to the newspapers in which he endorses the lynching of Davis.

Father Shoots His Own Child.

Maysville, Ga., Aug. 20.—A sad tragedy was enacted at the home of Mr. Marcus Parr, at Dry Pond, Jackson county, when he accidentally killed his daughter, 13 years of age, after the family had retired for the night. It seems that dogs were fighting in the yard, and Mr. Parr reached for his gun as he lay upon a pillow by the bedside. The shell exploded as he pushed in the breech of the gun, carrying the whole load into the body of the sleeping child as she lay upon the bed. Everything was gone that was possible for the wounded girl, but she died after lingering a few hours.

Alleged Murderer Caught.

Huntsville, Ala., Aug. 20.—James Hamilton, who is here for murder, has been captured in Florida, after being a fugitive three years, and is held by the authorities there. Hamilton, it is alleged, ambushed and killed Dr. Ake, near New Hope. Dr. Ake was looking for Hamilton at the time for paying improper attention to his wife. Hamilton's father remained in jail several months as an alleged accomplice, but was released.

50 MEN ENTOMBED IN VIRGINIA TUNNEL

Not Known Whether Men Are
Dead or Alive.

WEEPING WIVES WAIT FOR NEWS

Strong Party of Rescuers Working Frantically to Dig Through Great Mass of Earth that Separates Entombed Men From Light of Day.

Bristol, Va., Aug. 20.—Fifty men are entombed in the Clinch mountain tunnel at Clinchport, Va., as a result of a cave-in, which occurred Friday.

It is not known whether the men are dead or alive, but the work of rescue is being rushed as fast as possible. Air is being pumped in the tunnel by several pumps, for a distance of 700 feet, and a large force of men is working in an effort to rescue the unfortunates before they perish, if they are not already dead.

The cave-in occurred unexpectedly, and it is not known who is responsible.

The men entombed are chiefly natives of that mountainous section of southwest Virginia, and the excitement and anxiety is intense.

Men, women and children are at the mouth of the tunnel waiting news of those dear to them inside and pitiable scenes are being enacted. Women are screaming and wringing their hands and crying hysterically for fathers, brothers and loved ones who are prisoners in the black hole and perhaps dead and dying.

The work of rescue will continue as rapidly as possible, though it cannot be stated with any degree of certainty how long it will take to reach the men. No bodies have as yet been recovered.

The tunnel is being driven through Clinch mountain and is to be one mile in length. It has already been extended about 700 feet, and the men are a considerable distance in the hole.

The contract for the tunnel was let to contractors some months ago by the South and Western at \$2,200,000, and is to be one of the longest and most expensive tunnels in the south.

Fever at Matanzas.

New Orleans, La., Aug. 20.—President Irion, of the state board of health has received a telegram from the acting surgeon general of the marine hospital service, stating that a case of yellow fever was taken to Matanzas from Havana on the Italian steamship Miguel P. Pinellas Aug. 15; that the vessel had been disinfected and sailed for New Orleans. She will be placed in quarantine at the Mississippi quarantine station for six days.

Change in Militia Regiments.

Chattanooga, Aug. 20.—A change in the militia regiments at Chickamauga National park, encampment was made Saturday. The first and second Tennessee and the first North Carolina take the places of the first South Carolina, third Tennessee, and a battalion of infantry from Mississippi. The force of regulars remains on duty.

Killed in a Melon Patch.

Franklin, Ky., Aug. 20.—Henry Jones, a one-armed boy of Franklin, was shot and killed in the melon patch of Will Hobdy, a cropper, on the farm of Judge Charles W. Miliken. Hearing a noise in the melon patch, Hobdy fired in its direction. Later he came upon the lifeless body of Jones.

Stensland Case Continued.

Chicago, Aug. 20.—Theodore Stensland, vice president of the Milwaukee Avenue state bank, charged with violating the state banking laws, failed to appear before Justice Severson in the West Chicago avenue police court Saturday. The case was continued to Aug. 28.

Ports Ready for Louisiana.

San Juan, Aug. 20.—The steamer Arkadia, which left New Orleans for New Orleans, Aug. 19, with one hundred Porto Rican laborers to work on plantations in Louisiana.

GUARDS' RIFLE TEAM HAS RETURNED HOME

Many Individual Awards Were
Accorded the Team.

LIEUT. BLANDING WAS HONORED

Has Been Selected for Third Time to
Represent Florida State Troops at
National Shoot—Individual Distinction
to Sergeant Boyd.

Gainesville's crack rifle team from
Company H, Second Infantry, Florida
State Troops, being the Gainesville
Guards, returned Monday from St.
Augustine, where they have been con-
testing for prizes for the past few days
in the State contest. While the team
as a whole did not bring back any
State prize, there were several indi-
vidual honors bestowed upon the team
for marksmanship.

The team comprised five men, and
was in command of Lieutenant J. W.
Blanding. The team entered as a mat-
ter of course the contest for the hand-
some Taliaferro trophy, which goes to
the winning team each year, and came
out remarkably well, but St. Augus-
tine was the lucky winner this year.

Lieutenant Blanding won the first
prize in rapid firing, 200 yards, and
second prize, medal, in the individual
match.

The team was also recognized, re-
ceiving fourth place out of fifteen
competing teams, which Lieutenant
Blanding considers unusually fine,
considering that this is the first year
the team has worked on a government
range. He is very proud of his team,
and declared that, with proper prac-
tice, they would be as a whole the best
in the Florida State Troops and among
the best in the country.

Sergeant C. B. Boyd was honored
by being third highest man in the 1,000
yard contest, which is one of the most
difficult contests in use. Sergeant Boyd
in this match demonstrated his ability
as a marksman.

Lieutenant Blanding was selected as
a member of the crack team to attend
the National shoot at Sea Girt, N. J.,
which will be held in September, be-
ginning the 4th. Lieutenant Blanding
is a good marksman, the best evidence
being the fact that he has been a mem-
ber of the Florida team for the past
two years, one year shooting at Fort
Riley, and last year at Sea Girt, where
he made good records.

FROST IN VERMONT.

Mrs. Dutton Writes from Townshend
of Reported Frost in That Section.

Col. H. F. Dutton has received from
Vermont an interesting letter from his
good wife, who is now sojourning at
Townshend.

It is nothing uncommon for Col. Dut-
ton to receive from Mrs. Dutton an in-
teresting letter, but the uncommonly
interesting point in this particular
letter was the reference of the lady to
the effect that a frost was reported on
the hill farms in the vicinity of the
town in which she is sojourning.

The letter was dated on August 15,
Wednesday, and proved of unusual in-
terest on account of recording a frost
at this season of the year.

But notwithstanding that New Eng-
land can produce a frost in August,
Florida is cool and delightful at this
time, and those "unfortunates" who
have occasion to remain here for fi-
nancial and other reasons are enjoying
their nocturnal slumbers with peace
and comfort.

Runaways Galore.

Monday was a red-letter day for run-
aways. The mule—the "faithful, gen-
tle mule," Maod—which has been so
long in the employ of Saunders &
Earle as a draft animal, took a sudden
notion to show what she could do on
a sprint, with the result that Saunders
& Earle sustained quite a loss. Not
content with tearing up the wagon to
which she was attached, she ran into
another vehicle owned by the firm and
used for delivery purposes, wrecking
the rear wheels. The animal was fi-
nally apprehended, after doing the
damage referred to.

A few moments after this runaway,
a horse attached to a wagon, and be-
longing to H. H. Arnold of Fairbanks,
became alarmed at the approach of a
train on the Atlantic Coast Line and
made a bold dash down Union street
and over into East Gainesville, where
the animal was caught, the wagon
having collided with a telephone pole
at the corner of Prairie and Alachua
streets. No serious damage was done
to either horse or wagon.

Obituary.

A sad death occurred in High Springs
on Thursday, August 9th, that of Mrs.
Duncan Jordan. She leaves a hus-
band and six children, one an infant
four days old, to mourn her loss. She
was an estimable lady, a true wife and
devoted mother. She was a veritable
home-maker, giving up all thought of
self in the care of her children, the
duties of her household and the com-
fort of her husband. Yet she was
never deaf to the call of distress, and
found time in her busy life to minister
to the sick and the needy within the
circle of her acquaintances.

She was a native of Lowndes county,
Ga., where her relatives still reside.
Her sisters, Mrs. J. B. Singleton of
Valdosta, and Miss Lizzie Robinson of
Naylor, Ga., attended her funeral.

A few days ago the sympathy of
High Springs was aroused for a young
wife mourning the tragic death of her
husband, but yesterday the hearts of
the community were wrung at the
sight of young children bereft of their
best earthly friend.

Much sympathy is extended to the
family.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana,
writes: "Last year I suffered for three
months with a summer cold so distress-
ing that it interfered with my business.
I had many of the symptoms of hay
fever, and a doctor's prescription did
not reach my case, and I took several
medicines which seemed to only ag-
gravate my case. Fortunately I in-
sisted upon having Foley's Honey and
Tar and it quickly cured me. My wife
has since used Foley's Honey and Tar
with the same success." J. W. Mc-

A Secret

It aids nature a little, that's the only
secret about it. We refer to Ayer's Hair
Vigor. It feeds the hair, makes the scalp
healthy. The hair stops falling out and
all dandruff disappears. The result could not be different, for it's the natural
way. And it is a splendid dressing, keeping the hair soft and smooth. Why
not save what hair you have and get more at the same time? J. C. Ayer & Co.,

RHEUMATISM TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism; it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

NEWS OF CITY AND
COUNTY CONDENSED

Conductor Chas. R. Carter of the Atlantic Coast Line was in the city for a while yesterday with relatives and friends. Captain Carter is now in command of the High Springs-Leesburg local freight, which runs through Gainesville.

On account of the home-coming of Wm. J. Bryan the Atlantic Coast Line will sell tickets from all points on this line to New York and return for one fare plus \$2.25. Tickets on sale August 28th and 29th, final limit leaving New York not later than September 4th. See your nearest railroad agent or write for Pullman reservations and full information to Frank C. Boylston, District Passenger Agent, Atlantic Coast Line, Jacksonville, Fla.

Mr. and Mrs. James A. Abrams of Jacksonville are on a brief visit to relatives in this city. They spent the day yesterday as guests of N. A. Callison at Spring Park Farm. Mr. Abrams, who was for several years engaged in the musical merchandise business here, moved to Jacksonville, when he enlarged and extended his territory. He has now one of the handsomest and most modern stores of its kind not in Florida, but in the South, and his friends will be glad to learn that he is prospering. Mr. Abrams' friends were about to place him in the line of old bachelors until a few days ago, when he could no longer stand the "proposition" and took unto himself a wife. His friends join in the most hearty congratulations in his good fortune.

A NEW SWITCHBOARD.

Increased Business of Telephone Company Requires New Facilities.

The rapidly increasing business of the East Florida Telephone Company has demanded new and more modern equipment and facilities, and the first step in this direction was a new double switchboard of the latest and most modern pattern, which was installed a day or two ago.

The East Florida Telephone Company's lines now extend to almost every important point in the county, and as far south as Juliette. It is said that the line will be extended into Ocala and further south, but this is not authentic.

The Misses Wells, two of the most obliging and competent telephone operators in the State, have charge of the Gainesville exchange of this company.

WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. Chas. E. Brown, Vice-President Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham:— "For nine years I dragged through a miserable existence, suffering with inflammation and female weakness and worn out with pain and weariness. I one day noticed a statement by a woman suffering as I was, but who had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was a different woman. Every one remarked about it, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured the trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacements, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

BAKER LOST UNIFORM

Popular A. C. L. Conductor's Chest Robbed of Clothing.

Captain Baker of the Atlantic Coast Line is short one uniform which was of the neatest pattern and best goods, and which naturally cost him quite a little "wad." The result was that on his trip south on the Jacksonville-St. Petersburg run a day or two ago he was wearing citizens' clothes, which did not deprive him of his cleverness, but his official dignity in appearance.

On his trip north, it is the custom of Captain Baker and others just before reaching Jacksonville to deposit their uniform in a chest provided for the purpose and don their citizen's clothes. Captain Baker did this as usual, but this time he might have been a little careless in locking his chest, when some heartless rascal went in and helped himself to the uniform.

Captain Baker was good-natured in telling of the loss, however, and will secure another uniform at once.

BARNES IS IN JAIL.

Committed in Justice Small's Court for Murder Without Bail.

Jack Barnes, the negro who attempted to murder Rev. Grant at Hague Saturday, the bullet wounding the intended victim and killing Tom Metcalf, another man, was arraigned in Justice Small's court at Hague and committed without bail to await the action of the grand jury at the next session of the circuit court, which will be the fall term.

Justice Small, who was a visitor to Gainesville Monday, stated that, while the wounds of Rev. Grant may not prove fatal, they are quite painful, and are giving him no end of pain and trouble. His condition, however, is little improved over Saturday night, and he may die.

All parties are negroes, as was stated in The Sun of Sunday. Barnes is said to bear a reputation anything but enviable.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine for those troubles on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

A DISTINGUISHED PARTY.

High Officials of the Atlantic Coast Line Spent Sunday Here.

Gainesville was favored on Sunday with the presence of General Superintendent H. A. Ford of the third division, A. P. Connelly, superintendent of transportation and District Superintendent J. C. Higgins of the Sanford district, Atlantic Coast Line, who spent the day here in Mr. Ford's private car.

These gentlemen, all of whom are well known here, passed the time very pleasantly among their friends. The party is on official business. A trip was made south, and they were en route to Jacksonville, leaving on the afternoon train.

General Manager Royal of the Atlantic Coast Line with headquarters in Wilmington, N. C., has also been making an official trip, a tour of inspection, over the track comprising the third division. He was in High Springs Monday en route north.

MISS MILLER APPOINTED.

Young Lady of Lake City Will be Appointed to High School.

The faculty of the University High School has been completed with the appointment of Miss Gussie Miller of Lake City to fill the vacancy of one teacher existing.

Miss Miller is not only one of the most competent teachers, but one of the most popular in the State, and will make a valuable acquisition to the school faculty. She is a young lady of high connection, and is one of the most widely known of the young teachers of the State holding a first-grade certificate. She will be gladly welcomed here in both social and educational circles, and it goes without saying that she will make a good record.

ENTERTAINED HIS FRIENDS.

Manager Callison of Spring Park Farm Had a Big Sunday.

Manager N. A. Callison of the Spring Park Stock Farm Company retained his reputation on Sunday last by entertaining many friends, among whom was the city editor of The Sun, his family and relatives, and a party of gentlemen who came by automobile from Gainesville. Mr. Callison is a royal entertainer, and his friends cannot soon forget him.

Improvements continue on Spring Park Farm, which is destined to become one of the most modern stock farms in the South.

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to-date livery.

Buses will meet all trains. In addition to The Breakers it has been possible to add the use of the Clarendon bath houses, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management. The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season. For rates and reservations apply to BERT J. HOLT, Seabreeze, Fla.

The space allotted each county exhibiting at the coming State Fair will be reserved for that county at the great Panama Exposition, which is to be held in 1908, and which will be attended by hundreds of thousands. Many new buildings will, of course, have to be erected for the Exposition, in order to give Florida and other States ample room to display their resources, and no county in Florida can afford to be without representation either at the State Fair or the Panama Exposition.

A school of seven whales, ranging in length from 20 to 12 feet, became stranded on South Beach, St. Augustine, and perished on account of the receding tide leaving them. While these fish are commonly known to "land lubbers" as "whales," they are really Blackfish, a small kind of whale. The writer assisted in the capture of one on the Gulf Coast in 1875 which was 22 feet long, from the blubber of which 50 gallons of fine machinery oil was extracted, the oil at that time being worth \$1.25 per gallon. The oil extracted from brain pan of the Blackfish is the finest kind of machine oil.

Florida counties contemplating exhibiting at the coming State Fair at Tampa will be interested to learn that Hillsborough county will not compete for any of the prizes offered. Hillsborough, however, will be represented by a magnificent exhibit; but as it is the home county of the Fair, and, owing to Tampa being the scene of the Fair, it can easily win points on industrial and educational exhibits, which puts the other counties at a disadvantage, and Hillsborough, therefore, withdraws from the race. Hillsborough county expects to get her reward from the advertising of the resources of the county to the thousands of home-seekers who will attend the Fair; and for the benefits of advertising, even if the fifteen thousand dollars were not offered in premiums, every county in the State should be represented.

FLORIDA'S GREAT DEVELOPER.

Referring to one of the two or three papers that have criticized Hon. Frank Clark for his eulogism of Mr. H. M. Flagler in his Miami speech, The Times-Union says: "A periodical has sprung up in Deland known as 'The Mercury.' It announces that it is 'published weekly to uphold the right and suppress the wrong.' A man who parts his name in the middle is announced as its editor and manager. It contains not one line of news, not one item tending to benefit Florida or any county or town in the State, not one suggestion calculated to advance the interest of any individual, outside of a peculiar clique of politicians whose only hope for power lies in the effort to array the people against the men who are so rapidly changing Florida from a wilderness to the most desirable portion of the United States.

"It is not surprising that such a publication should attack Mr. Clark for making complimentary reference to Mr. Flagler, for those who would fight progress in Florida look on Mr. Flagler as their arch enemy, and he should appreciate this as the highest compliment that could be paid him.

"The attack on Mr. Flagler, which this periodical publishes, engages in generalities which do not call for special answer. The general tenor of it, that Mr. Flagler is one of the wrongs to be suppressed, has a standing answer much more effective than any that could be made of words. It stretches along the Atlantic a line of beauty and prosperity over three hundred miles, and it is there to stay whether The Mercury, or whoever owns it, would like to blot it out or not.

"But the line is not yet complete. Possibly The Mercury would like to stop its completion. When it is completed, it will be the most remarkable achievement in the history of railroad building. Mountains have been tunneled, but never before has a railroad reached across the sea to an island far distant from the mainland.

"Was Mr. Flagler's work inspired by cold hearted selfishness? Why did not some one form a company to extend a railroad two hundred miles beyond the last settlement that contained two hundred people? Why was not a company formed to build over the keys and across the waters to Key West? If these were so clearly money making propositions, it is strange that the glittering opportunities for wealth were neglected so long.

"In passing on the character or achievements of any man there is one test which with an honest man is final. Everyone who wishes to discuss Mr. Flagler should apply it. Of such we ask: Would you undo his work? Would you change the East Coast back into a wilderness? Would you stop work on the Key West extension and tear up the track south of Titusville? Would you obliterate the towns along the Indian river and Biscayne bay and have the farms grow up in grass and weed? Say it if you dare. If not admit that your attacks were inspired by the meanest and most contemptible malice.

"After Mr. Flagler shall have passed away his monuments will remain—some of them as far as man can see into the future. The magnificent palaces that he has built will crumble, but he alone of all men has built a country and it will never pass away. The band of concrete and steel with which he will bind Key West to the mainland will have to be renewed from time to time, but the garden spot of the world today, yielding its riches to thousands, will soon tempt hundreds of thousands to share them, and as long as it remains the ideal home for men the man who opened it to settlement should be remembered."

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

ALL GOOD DEMOCRATS, ATTENTION!

Washington, D. C., Aug. 18, 1906.
To All Democratic Voters:

If there was ever a time in the history of the Democratic party for the manifestation of loyalty and patriotism on the part of its members, it is right now.

If we are to win a victory and elect a President two years hence, we must first elect a House of Representatives this fall.

A Democratic House can and will investigate every department of the government. With all of them honey-combed by "graft," the edges of which only have been touched by recent exposure and prosecutions, there will be a revelation of rottenness that will astound the country and create a demand for a Democratic administration to clean the government work-shop.

To win the House we need money to defray legitimate expenses and get out our vote. We have no protected monopolies from which to draw to fill our coffers, as they do those of the Republican party. We must, therefore, appeal to loyal Democrats for contributions.

Will you send us one dollar at once, and in return for this we will send you copies of our campaign literature issued by the committee. You will have the thanks of the entire Democratic party for your favorable response to our request.

Says Lull Will Continue.

Berlin, Aug. 18.—Mr. Meyer, the American ambassador to Russia, who is going to Kinnseken to take the cure, says the general consensus of opinion in St. Petersburg is that the present lull in the revolutionary movement will continue for several months.

BARS MEXICAN LABOR.

Aliens Working on Constructing Railroads Are Ordered Deported.

Washington, Aug. 20.—An important question respecting the importation of labor from Mexico for work into the United States, for railroad construction in Texas, has been determined by the department of justice at the instance of the department of commerce and labor.

The question was whether men employed as laborers on railroad construction were "skilled" or "unskilled" in the meaning of the law. The department of justice, through an opinion rendered by Acting Attorney General Charles H. Robb, has decided that the men are "unskilled" laborers and that, therefore, cannot, under the law, be admitted into the country under contract.

The decision says in part:

"In the act, which is now in force the distinction between two classes of labor is still maintained. It is therein provided that neither class shall be brought in under contract. No exception whatever is contained in the act in respect to unskilled labor, but it is provided that skilled labor may be imported under certain conditions. That there is a difference in fact and in law between skilled and unskilled labor is too plain to admit of argument.

"It must also be presumed that congress was mindful of this difference in the enactment of this law. It is certainly not for the executive department of the government to nullify the will of congress."

Immediately on receipt of the opinion, Acting Secretary Murray, of commerce and labor, dismissed the appeals of the aliens and accorded them to be deported.

Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." The Cleanest Chew Made!

Schnapps

If you could see how SCHNAPPS is made and sniff the delightfully appetizing aroma of the thoroughly cured, well made—which it is cover the rea-

tured tobacco of made, you would dis- sons for the big difference between SCHNAPPS and its imitators.

SCHNAPPS is clean! The Reynolds factories are as clean as the cleanest kitchen—the tobacco in manufacture is scarcely touched by human hands—with special machinery to cleanse the leaf and produce clean chewing tobacco.

When such scrupulous care is taken with the choicest selections of tobacco from America's finest chewing tobacco districts, can you wonder that SCHNAPPS is so satisfying, so pure, so appetizing and wholesome—so different from chews that pretend to be as good?

Expert tests prove that this superior tobacco requires and takes a smaller amount of sweetening than any other kind—and has a wholesome, stimulating and satisfying effect on chewers.

Be sure the letters on the tag and under the tag spell *Schn-a-p-p-s*. The Reynolds Company is under the direction of the same men who have managed it since 1875, and who have made the chewing tobacco business a life-study.

There are plenty of plugs that look like Schnapps, without the same satisfying chewing qualities.

H. Beaver, of Cobb county, convicted of simple larceny.

"Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by all druggists.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success. I am Yours truly, W. C. DANIEL.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. Miss Helen Earlson Parkhill, a charming young lady of Monticello who has been here on a visit to Miss Pearl Whetstone for the past three weeks, has returned to her home. She made many friends here who were delighted with her presence, and who hope to see her here again at no distant day.

Yesterday being the regular pay day at this point on the Atlantic Coast Line, the pay car arrived on due time, about 11:30 o'clock, and made "the boys" happy by distributing the various salaries due them for the past month's work. There is a large pay-roll here, and it requires some time for the distribution of the envelopes and signing of vouchers.

Captain and Mrs. S. C. Tucker and family spent Sunday with Mr. and Mrs. John R. Beville, a few miles west of Gainesville. Captain Tucker reports a delightful time, as they were entertained in the usual hospitable manner for which Mr. and Mrs. Beville have made themselves famous.

Dr. J. H. Alderman returned Sunday from a brief business trip to Jacksonville. Dr. Alderman is negotiating for some valuable business property in that city which is paying handsome dividends, and will probably invest in same. He has no intention of leaving his professional practice in Gainesville, however, as it is proving too profitable to him.

J. B. Douglass, for many years a merchant of this city but now manager of the commissary of Monroe Venable & Co., naval stores operators of Sampson City, was among his friends here Sunday, all of whom were glad to see him. Mr. Douglass' family resides here, but are at present visiting in South Carolina, with the exception of his son, Byrus.

Captain J. A. Tucker of Rochelle was in the city trading yesterday. He states that Mrs. Tucker and daughter, Miss Winnie, will leave today for Terre Haute, Ind., where they will visit Mrs. Tucker's mother, whom she has not seen for fifteen years. Her mother, Mrs. Hanorah Carey, is now in her eighty-sixth year, but is yet active. Friends of Mrs. Tucker and Miss Winnie wish them a pleasant sojourn.

C. S. Hill, civil engineer for the Cummer Lumber Company, left yesterday for Double Sink, Levy county, where he went to relieve Commissary Manager S. B. McGill for a short time. Mr. McGill was summoned to South Carolina a few days on account of the death of a brother, and before he was ready to return was stricken himself with fever. Friends will be sorry to learn this, but hope he will soon recover.

Mr. and Mrs. Tom McCarroll are rejoicing over the birth of a fine boy, which first saw the light of day at the home of Mrs. McCarroll's parents at Williston a few days ago. The happy "dad" has not yet seen the youngster, as he is now in New Orleans. It is safe enough to say, however, that he is walking with more dignity than usual, and the proverbial peacock would not be in it when it comes to preening. Friends extend congratulations.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. DANIEL.

C. J. Mixson has accepted a position as cutter at the market of E. K. Fagan. Mr. Mixson is a competent man, as well as popular in the trade, and will no doubt attract additional patronage in connection with giving a good service.

Miss Helen Earlson Parkhill, a charming young lady of Monticello who has been here on a visit to Miss Pearl Whetstone for the past three weeks, has returned to her home. She made many friends here who were delighted with her presence, and who hope to see her here again at no distant day.

Yesterday being the regular pay day at this point on the Atlantic Coast Line, the pay car arrived on due time, about 11:30 o'clock, and made "the boys" happy by distributing the various salaries due them for the past month's work. There is a large pay-roll here, and it requires some time for the distribution of the envelopes and signing of vouchers.

J. W. Bynum of Live Oak was in the city yesterday and registered at the Brown House. Mr. Bynum is a prominent contractor, and is now engaged in erecting a fine \$8,000 home for the Camps at White Springs. He is well known in this county, having resided in Alachua and conducted the Sheffield House for about two years.

John W. Ettel of White Springs, also senior member of the firm of Ettel & Son, proprietors of the Brown House in this city, was here yesterday looking after his interests and to visit his son and friends. Mr. Ettel, who is operating The Hamilton for the same firm which owns the Brown House rights, states that he has had a fine season. He is well pleased with the business of the Brown House here. Joe Ettel is not only a clever landlord but a fine manager, with the result that he has made this hostelry quite popular throughout the State.

Captain and Mrs. S. C. Tucker and family spent Sunday with Mr. and Mrs. John R. Beville, a few miles west of Gainesville. Captain Tucker reports a delightful time, as they were entertained in the usual hospitable manner for which Mr. and Mrs. Beville have made themselves famous.

Dr. J. H. Alderman returned Sunday from a brief business trip to Jacksonville. Dr. Alderman is negotiating for some valuable business property in that city which is paying handsome dividends, and will probably invest in same. He has no intention of leaving his professional practice in Gainesville, however, as it is proving too profitable to him.

J. B. Douglass, for many years a merchant of this city but now manager of the commissary of Monroe Venable & Co., naval stores operators of Sampson City, was among his friends here Sunday, all of whom were glad to see him. Mr. Douglass' family resides here, but are at present visiting in South Carolina, with the exception of his son, Byrus.

Captain J. A. Tucker of Rochelle was in the city trading yesterday. He states that Mrs. Tucker and daughter, Miss Winnie, will leave today for Terre Haute, Ind., where they will visit Mrs. Tucker's mother, whom she has not seen for fifteen years. Her mother, Mrs. Hanorah Cary, is now in her eighty-sixth year, but is yet active. Friends of Mrs. Tucker and Miss Winnie wish them a pleasant sojourn.

C. S. Hill, civil engineer for the Cummer Lumber Company, left yesterday for Double Sink, Levy county, where he went to relieve Commissary Manager S. B. McGill for a short time. Mr. McGill was summoned to South Carolina a few days on account of the death of a brother, and before he was ready to return was stricken himself with fever. Friends will be sorry to learn this, but hope he will soon recover.

Mr. and Mrs. Tom McCarroll are rejoicing over the birth of a fine boy, which first saw the light of day at the home of Mrs. McCarroll's parents at Williston a few days ago. The happy "dad" has not yet seen the youngster, as he is now in New Orleans. It is safe enough to say, however, that he is walking with more dignity than usual, and the proverbial peacock would not be in it when it comes to pride. Friends extend congratulations.
